# "FRANCESCO PASINETTI" VIDEO COMPETITION

The **"Pasinetti" Video Competition**, now in its 16th edition, always directed by **Michela Nardin** and curated by **Daniela Manzolli**, continues its tradition to underline the strong link between the Festival and the territory. Among the numerous sections of the project, the deep link with the Venetian reality emerges. To ensure its live and true participation, this year Venice will be one of the themes of the award sections, focusing on life between present and future perspectives. An important role is played by the young generation, as it is to middle and high school students that the "**Bruno Rosada**" Prize for animated gifs and the book trailers is aimed. Moreover, the Municipality of Venice, Murano and Burano, which has always provided its collaboration, each year assigns a prize to the video that best reproduces the beauty and fragility of the city, the dangers that impend on it and the desire and the tenacious efforts to overcome them.
